

Captain Niblack, U. S. N., is engaged in compiling a list of the wrecks that have occurred on the Hawaiian Islands of which there is any record, with a view to laying the matter before the United States Lighthouse Board to strengthen the claims of these islands to greater consideration in the matter of lighting, buoys, etc.

The people who have responded with lists are the Inter-Island Steam Navigation Co., the former Wilders' Steamship Company, Harbormaster Andrew Fuller, T. G. Thrum (the veteran editor of Thrum's Annual) and T. H. Davies & Co., Ltd., representatives in Hawaii for Lloyd's agency.

NOBAU ALMOST SANK.

Owing to an extremely heavy load on the forward deck the steamer Nobeau almost sank off Makapuu Point on Tuesday. Captain Pederson brought the vessel back to Honolulu, and enough of the cargo was discharged for the vessel to put to sea this morning in a safe condition.

The cargo filled the hold and besides there was thirty-two tons of coal on the forward deck, 14,000 feet of lumber in the alleyways and a quantity of kerosene oil tins stored about the decks. She was down to eleven feet six inches at the bow and twelve feet eight inches aft, whereas her maximum mark is ten feet forward and twelve feet aft.

When off Diamond Head the vessel plunged into heavy seas. Her nose dug down deep and the forward part of the boat was partly submerged and the decks generally were flooded. All doors leading to the lower regions of the boat were closed up tight, and no water, luckily, got into the engine room. Finally Captain Pederson gave orders to put the vessel about and return to Honolulu.

The officers positively refused to go to sea again unless the load was reduced. The matter was also laid before the Masters and Pilots Association which held a special meeting to consider the matter. It was there declared that no member of the Association should take out the vessel if she was loaded down so deeply as reported. The company accepted the Association's ultimatum, and reduced the load. The coal was piled on the forward deck as a rush order had been received for coal on a Hawaii plantation.

WASN'T AFRAID OF MARSHAL.

E. B. Friel, who was placed aboard the ship W. H. Smith on Tuesday afternoon by Marshal Hendry, after an attachment had been served on the vessel at the instance of Umekichi Naka, a Japanese stevedore who was hurt aboard on Monday, informed Deputy Marshal Winter yesterday that the captain had threatened him. Mr. Friel's letter to Mr. Winter is as follows:

"I am having lots of trouble here. Last night the captain ordered me ashore and told me that he had cleared the ship at the Custom House yesterday at 3 p. m., and would leave this morning as soon as he could get the tug boat to tow him out, and that he would put me ashore and he didn't give a damn for the marshal or any one else. What shall I do?"

Shortly afterward the ship captain stood on the carpet in U. S. District Attorney Breckons' room, and there received some energetic words of advice as to his future conduct while a federal officer remained aboard the ship.

MARINER'S STRANGE WILL.

According to the will of the late Captain S. H. Lucas, who died a short time ago in Los Angeles, the body is to be cremated, the ashes put in a copper globe, with name and age engraved thereon and under it the following: "Rocked in the cradle of the deep I lay me down, in peace to sleep."

The globe is to be given to the officers in charge of some United States man-of-war with the request that it be thrown overboard in the Pacific midway between San Francisco and Honolulu.

Captain Lucas was a man of genius, having invented several useful devices, among them being an agitator for use in concentrators.

WAIALEALE TO PUGET SOUND.

Captain Rennie formerly master of the steamship Mariposa, with other officers and engineers will shortly come to Honolulu to take charge of the Inter-Island steamer Waialeale and take her to Seattle. The Waialeale was recently sold to Cook & Co., of Seattle, agents there of the American-Hawaiian S. S. Co. The little steamer will be put to work about Puget Sound. The Waialeale has been laid up for some time.

The concrete foundation of the driveway on the Waikiki side of the Mauna Loa wharf has been covered with two inches of bitumen and the improved appearance is already generally remarked upon. The contractors, Lord & Belser, begin today on the makai driveway and will have the concrete in place by Saturday night. The bitumen will be put on next week and then the Inter-Island will have a thoroughly up-to-date wharf. Capt. Haglund, the wharf superintendent, will be the happiest man in town when the job is complete as he has been trying to get it done for a year and finally had to fill the Ewa end of the makai driveway with dirt to prevent the water settling around the wharf buildings.

The raising of the dock eight inches kept the water from draining off and it became a nuisance to all who had business to do down there during the severe rainy weather.

SHIPPING NOTES.

The Nihau will leave today for Anahola at five p. m.

The Enterprise will sail for Hilo today and thence to San Francisco.

The Mo'i Wahine and the tug Leslie Baldwin are on the Marine railway.

The schooner C. L. Woodbury left yesterday for Hilo with combustibles.

Arrivals at the Inter-Island docks yesterday were the Claudine from Maui and the Nihau from Kauai.

It is rumored that one of the deep sea lines is invading local shipping circles in search of an officer for one of their regular steamers.

The wireless telegraph station at the naval reservation is now prepared to communicate with any war ships equipped with the apparatus.

A former sailor of the Barracouta suddenly made up his mind to go to Manila and shipped as fireman on the transport Sherman just as she was leaving the dock.

The Claudine arrived from Maui yesterday morning with the following cargo: 262 sacks of potatoes, 65 sacks of corn, 25 sacks of taro, 16 hogs, 1 horse, 10 calves, 30 head cattle, 107 packages empty bottles and 112 packages sundries.

During the absence of Captain Clark on the Kinau, Captain Haglund is looking after both of the Inter-Island wharves. Captain Freeman of the Hilo boat has a two weeks' leave of absence, but may take out his old boat next Tuesday nevertheless.

On account of the adverse weather, it is expected that the Likelike and Ke Au Hou, both of which were expected Saturday morning, will be late and will not arrive until the afternoon and possibly not until Sunday morning. The Kinau may be delayed also.

It was stated yesterday that the ship W. H. Smith, which was libeled recently by the Japanese stevedore who fell into her hold, had arranged for bonds and would depart at once. She will have to get out new clearance papers, however, for those she had are only good for forty-eight hours.

The Canadian-Australian liner Aorangi came into port yesterday morning and departed at half past one with Delegate Kalamianole aboard en route to Washington and Congress. She was delayed a day on account of having to load sugar in Suva. She left the latter place November six, Brisbane November first and Sydney two days previous.

It is claimed along the water front that if a man has accident insurance he can not collect damages by means of admiralty suit. One of the local shipping men who is interested in at least one large vessel says that his company keep their men all insured for the express purpose of keeping out of the maritime courts and that it pays to do so.

Another ship may have a Japanese libel suit on its hands since the Stanley Dollar set the style among the Orientals. The Abner Coburn had the bad luck to have one of its stevedores, Sissuro by name, injured by a piece of coal falling on his head yesterday while a bucket of that necessary article was being hoisted on deck. He was removed to Iwilei and a doctor is in attendance.

LAME BACK.

This ailment is usually caused by rheumatism of the muscles and may be cured by applying Chamberlain's Pain Balm two or three times a day and rubbing the parts vigorously at each application. If this does not afford relief, bind on a piece of flannel slightly dampened with Pain Balm, and quick relief is almost sure to follow. For sale by all dealers and druggists. SELF CURE NO FICTIOI.

MARVEL UPON MARVEL! NO SUFFERING NEED NO DESPAIR, but without running a doctor's bill or falling into the deep ditch of quackery, may safely, speedily, and economically cure himself without the knowledge of a second party. By the introduction of the New French Remedy, THERAPION, a complete revolution has been wrought in this department of medical science, whilst thousands have been restored to health and happiness who for years previously had been merely dragging out a miserable existence.

THERAPION No. 1 is a remarkably short time, often a few days only, effects a cure, superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases. THERAPION No. 2, for impurity of the blood, scurvy, pimples, spots, blotches, pains and swellings of the joints, gout, rheumatism, secondary symptoms, etc. This preparation purifies the whole system, breaks through the blood, and thoroughly eliminates all poisonous matter from the body.

THERAPION No. 3, for nervous exhaustion, impaired vitality, sleeplessness, and all depressing consequences of dissipation, worry, overwork, etc. It possesses surprising power in restoring strength and vigor to the debilitated.

THERAPION

chambers should see that the word "Therapion" appears on British Government Stamp (its is sold by the principal Chemists throughout the world. Price in England, 2/6 and 4/6. For white letters on a red ground) affixed to every package by order of His Majesty's Hon. Commissioners, and without which is a forgery.
